CONNECTING WEB VIEWER (WINDOWS)

1.) Click on the link labeled “Click here to access Webcam System”

2.) Log in ID: guest (no password is required)

3.) Click <Install ActiveX Control…
Downloading Active-X control may take several minutes according to the security settings on your PC.

4. Click <Install>.

5. You may have “Windows Security Alert” that attempts to block this with the Windows Firewall. In that case, click <Unblock> to start Web Viewer.
6. Installation is complete.
Now you can see the main screen of Live Viewer.
